 Manchester 07402227832

I am an analytical minded Full Stack Web Developer and Investment and Risk Finance MSc. I am currently seeking a front-end developer role to further develop and apply a highly transferable skill set including, numeric and quantitative skill, problem-solving and, commercial awareness accumulated through professional and academic experience. I am confident in my ability to deliver significant and measurable value to any organisation.

EXPERIENCE

Code Your Future | **Feedback Tracker** | 11/2020

A tool to enable mentors to give feedback to students on their technical skills and to keep track of student's progress.

- Worked in a team of four developers and two product owners to deliver a full stack application from concept to minimum viable product in 4 weeks.

- Built controlled form components in React and implemented React Router to create protected views.

- Connected the front and the back end of the application using Axios library and performed HTTP requests to create, read, update, and delete users' details in the database.

- Worked closely with the team in building the Express server, API endpoints, React components as well as designing the Postgres database schema.

Tech Stack: JavaScript, ReactJS, Express, PostgreSQL, CSS, React Bootstrap, Axios, Postman, Heroku.

- Repo: https://github.com/Leidagandy/Feedback-Compass
- Live Site: https://feedback-compass.herokuapp.com/

Udacity | **Polls** | 07/2020

A dynamic multiple choice questions application where users can create their own set of questions, choose between answers, and keep track of question popularity.

- Created React components to design the user interface and used Redux to manage state changes in a more predictable way.

- Implemented React's useContext hook to reduce prop drilling.

- Applied React Router to navigate between the different application views.

Tech Stack: JavaScript, React, Redux, CSS, Netlify.

- Live Site: https://github.com/Leidagandy/Polls-React-Redux-App

EDUCATION

Code Your Future, **Full Stack Web Developer Course** | 02/2020 - 11/2020

An intense 10-month web development course taught by professionals working in the industry.

- Learned to build mobile-first web applications with JavaScript ES6, HTML, CSS and React on the front-end and, Node.js (Express) and PostgreSQL on the back-end.

- Gained practical experience of working in projects in Agile teams with sprint planning, daily stand-ups, sprint review and sprint retrospective. Contributed to all requirements and review sessions, suggested ways to improve team collaboration and working processes, ensured that the team focused on the on-time delivery of the MVP.

Udacity, **React Nanodegree** | 04/2020 - 08/2020

A 4-month program with a focus on building declarative user interfaces with React and on managing the state more predictably with Redux.

- Learned to manage complex state to build enterprise-level apps.

University of Westminster, **MSc Investment and Risk Finance**
09/2014 – 09/2015 | London, UK
- Graduated with Distinction.

University of Westminster, **BA Business Management with Finance and Financial Services**
09/2011 – 07/ 2014 | London, UK
- Graduated with 2:1 Honours.

WORK EXPERIENCE

Trusted Group Holdings, *Office Administrator* | Manchester, UK | 01/2020 - current
- Use strong prioritisation, organisation, and time management skills to ensure an efficient flow of office procedures.

BookingGo, *Sales Advisor* | Manchester, UK | 01/2017 - 01/2020
- Received calls from customers worldwide enquiring about car hire, used efficient rapport building and questioning skills to establish needs and problem-solving skills to find the best solution for the customer.

Electrocasa Ltd, *Finance intern* | Praia, Cape Verde | 01/2016 – 11/2016
